ALL ABOUT SHOES!

Gentlemen are Requested not to Read this

We do not boast of Auction Shoes
At shillings six a pair,
For sure no lady would them choose
That wants a shoe to wear.

Now very much we feel inclin'd
Such Gaiters to expose,
They are not good, and you will find
Them bursting round the toes.

Such ill-made Shoes you could not wear
We often with them meet;
Just made to sell, they rip and tear
When walking in the street.

A lady passing by one day
Was caused a deal of trouble,
Superbly dress'd in garments gay
And Shoes not worth a bubble.

New pair of Shoes, and good ones too,
As the dear lady thought,
Until her feet protruding though
Proclaimed them good for naught.

We pay the prices for our work
To have it honest made,
To worthy men who are in truth
The masters of their trade.

And we can boast of extra nice
Of beautiful and neat,
Of fairy Shoes at fairest price
To decorate the feet.

Select Poetry.

They Have Given her to Another.

They have given her to another—
They have broken every vow—
They have given her to another,
And my heart is lonely now.
They remember not our parting—
They remember not our tears—
They have severed in a moment
All the tenderness of years.

Chorus.—They remember not, &c.

They have given her to another—
She is now a gentle bride—
Had I loved her as a brother,
I could see her by his side.
But I know with gold he won her,
And her tender heart beguiled,
For her mother, too, doth shun me,
For she knew I loved her child.

Chorus.—But I know with gold, &c.

They have given her to another,
She will love him, too, they say;
If her mom'ry does not chide her,
Perhaps, perhaps she may.
But I know that she has spoken
What she never can forget;
And although my heart be broken,
It will love her, love her yet.

Select Miscellany.

Wars in the past between France and Austria.

Within the last seventy years there have been five wars between France and Austria on the Continent of Europe.—Austria was one of the first nations that took up arms against the French Revolution. In connection with Prussia, in 1792, her armies invaded France After a desperate struggle they were driven out by the energy of the French Republican Assembly, and by the valor and military skill of General Dumourier. The French Assembly by a conscription, called out one million two hundred thousand men for the defence of the country, a military exertion which has seldam, if ever, been equalled in military annals.

Prussia and Spain withdrew from the coalition, and, in 1796, Austria was left to sustain the shock of the French in Italy. She was supported by the King of Sardinia, a State which is now her bitter enemy. The French army, under Napoleon, in two campaigns detached Sardinia from her alliance, drove her troops out of Italy, and pursued them into Germany, nearly to the gates of Vienna. Under the walls of that capital France dictated peace to Austria in 1797. By that peace she made large cessions of territory and influence in Germany. As a recompense Napoleon assigned her Venice and Lombardy, and first made her an Italian power.

In 1799 Austria and Russia took up arms against France, and for a time were very successful. They drove the French out of Italy. In the latter part of that year, however, Napoleon returned from Egypt. He induced the Russian Emperor Paul to withdraw from the Austrian alliance. Having accomplished this he led his army into Italy. On the plains of Marengo he fought a decisive battle, the result of which expelled Austria from Italy. It was soon followed up by the victory of Hohenlinden, in Germany, gained by the French under General Moreau.—The French columns were again near Vienna, and again France compelled Austria to sue for peace. In 1804 the Emperor of France became the King of Italy. Immediately after, Austria and Russia attacked France. Such, however, was the power of the latter that in six months one Austrian army was destroyed at Ulm, and another, together with the Russians, destroyed at Austerlitz. The French entered Vienna and again dictated a peace.

In 1809 Austria and France again met in collision on the tented field. The French, however, under Napoleon, marched down the valley of the Danube, with the velocity almost of the wind, and in one campaign took up their quarters in Vienna. A severe and ignominious peace for Austria was the result. In 1813 Austria united with all the great powers of Europe, overthrew the French Empire and broke down the power which had so often entered the gates of Vienna in triumph. By the treaties of 1814 and 1815 the northern States of Italy; Venice and Lombardy were ceded to Austria by the leading nations of Europe. It is now on the faith of these treaties that Austria rests her case, and appeals to the rest of Germany and to England to assist her in maintaining them inviolate. As they were the treaties which witnessed the humiliation of his uncle, Louis Napoleon has no great respect for them.—*Cincinnati Inquirer.*

A FAMILY PUZZLE.—The family of Mrs. Lucinda Burr, of North Wilbraham, according to the Palmer *Journal* consists of one father, three mothers, two grandmothers, one great grand mother, two widows, three children, one husband, one wife, two daughters, one grand-daughter, one son, one grandson, one great grandson, one mother-in-law and one son-in-law; yet the family numbers but five persons, who all live under the same roof.

The Six Pleas for a New Dress.

Tittle-winks wants another dress, and her lord protests. Now observe how she manages; she approaches with—

Plea No. 1—namely, The Persuasive Plea.—Oh, how hard he has to fight! She tells him how she loves him—smooths his hair, calls him a king—asks if he has the heart to deny her. If he says he has, she proceeds to—

Plea No. 2—or The Destitute Plea.—She informs him of the fact she has nothing to wear, and says a man is a brute who would not give his wife something to wear. That she is not fit to be seen.—That the people will cry shame on him. In vain he says that "beauty unadorned is adorned the most." She asks if he can be so mean as to refuse her. If he says "yes," she proceeds to—

Plea No. 3—or The Pouting Plea.—This consists more of gesture than speech. She sits at the table with her little nose turned up, and her little eyes turned down. She eats little, (till he goes to business,) sighs often, and walks about the house like a bad tempered ghost. She speaks only to say "she knew it would be so," and "it served her just right." Should he dare to say "it did," she proceeds to—

Plea No. 4—or The Property Plea.—She politely asks for the little money she had when she was married. Certainly she can do what she wishes with her own. In fact she had no property when they were married. All her worldly goods consisted of a few worsteds and knitting pins; but these knitting-pins she always pokes in his eyes, unless she conquers him before she gets to plea No. 4. Should this fail, she proceeds to—

Plea No. 5—or The Comparative Plea—All her departed lovers are made to pass before the unhappy man, and he is compared with them one by one If she had married Mr. Snooks,—or, the coachman—she would have had a livery If she had married Mr. Swizzle, she would have lived in style on Broad street. If she had married in fact, anybody but her husband—she would have been treated like a human being. He, perhaps, becomes a little angry, and suggests if she had married Adam she would have dressed like Eve! But as she had married him she must wear what he can give her. This rouses her temper, and she comes immediately to—

Plea No. 6—or The Plea Conclusive.—Which consists of a threat to go to her mother, and many upbraidings that he brought her away from the joys of her home, to abuse and make her miserable.

Now, no man was ever able to stand all these pleas. He generally fails at No 1, and only in extreme cases reaches No 6.

MARRIAGE.

From a lecture recently delivered by Bulwer, we extract a few passages:

"The law that binds the one man to the one woman, eloquently exclaimed the lecturer, "is indelibly written by nature, that wherever it is violated in general system the human race is found to deteriorate in mind and form. The ennobling influences of woman cease; the wife is a companion—a hundred wives are but a hundred slaves. Nor is this all; unless man look to woman as a treasure to be wooed and won—her single heart the range of his desires—that which desires the name cannot exist; it is struck out of the healthful system of society.

Now, if there is a passion in the human breast which most tends to lift us out of egotism and self—which most teaches us to live in another—which purifies and warms the whole mortal being—it is love, as we of the North hold it and cherish it. For even when the fair spring of youth has passed, and when the active life is employed in such grave pursuits, that the love of his early years seems to him like a dream of romance, still that love having once lifted him out of egotism into sympathy, does but pass into new forms and development—it has locked his heart to charity and benevolence—it gives a smile to his home—it rises up in the voices of his children—from his heart it circulates insensibility on to the laws that protect the hearth, to the native land which spreads around it.

Thus in the uniform history of the world we discover that wherever love is created, as it were, and sanctioned by that equality between the sexes which the permanent and holy union of one heart with another proclaims; there, too, patriotism, liberty—the manly and the gentle virtues—also find their place; and wherever the contrary is practiced and love disappears in the gross satiety of the senses, there we find neither respect for humanity nor reverence for home, nor affection for the natal soil.

And one reason why Greece is contrasted in all that dignifies our nature, with the effeminate and dissolute character of the East which it overthrew, is, that Greece was the earliest civilized country in which, on the borders of those great monarchies, marriage was the sacred tie between one man and one woman—and man was the thoughtful father of a home, not the lord of a seraglio."

Too Big to Obey a Mother.

A boy "Too big to obey his mother!" Such a boy must be larger than a giant, and one with strange ideas of the rights of big people. I should not like to live near him, nor even see him, for I expect he would feel too big to mind the laws of his country, or the laws of God, and thus be a dangerous neighbor. I am told that there are such boys, or rather those who think they are "too big to mind their mother."

What does your mother want you to do? To stay in of evenings, to let tobacco alone to avoid associating with bad boys, to read useful books, to shun novels and idle newspapers, to mind your studies or trade, or whatever you are engaged in on week days, with diligence, and on the Sabbath to be regularly at Church and Bible class; and above all, she wants to see you a faithful Christian boy. This would make her happy beyond description, and you feel "too big" to yield to her wishes!

My boy, believe me, you are in a most dangerous state of mind, which makes me tremble for you, both for this world and the next. Think of Christ, the King of kings and the Lord of lords. When he was old enough, and wise enough to confound the learned doctors in the temple of Jerusalem, he was none too old and wise to obey his mother; and when he was dying, he took care to provide her with a son to render to her honor and affection.

Believe me when you are small enough to depend upon your mother for your food and clothing, and daily care and while she is so anxious to see you growing up into a good and worthy man, and so willing to make any sacrifice to help you on in life, you should be ashamed to say, or even think, "I am too big to mind my mother."

Search all the biographies in your own, or your father's library, and tell if you can find a case of a man, distinguished for greatness and goodness, who allowed such a thought to enter his mind. No; such men prize a good watchful mother, obey her goodly maxims as long as they live, and teach them to their children.

You are "too big" to disobey your mother, but don't allow yourself, my dear boy to become such a monster of iniquity as to be "*too big*" to mind a good mother.

Somnambulic Excentricity.

A short time since, a wealthy lady, who has an only son, called on Professor Pan-coast. The latter, it should be remembered, rarely visits patients but receives them in his office. On this occasion, however, Professor P. complied with this request, and was ushered into the presence of Mrs. Smith. After the usual compliments Mrs. S. opened the following conversation:

"I Wish to consult you, doctor, concerning my son —George, you know."

"O, yes, madam," said the Professor, "but he is surely not sick?"

"Why, sir, there are no acute symptoms, but for about a month past he has been afflicted with somnambulism, and we fear that unless the tendency is corrected the most serious consequences may arise."

"You say he has walked in his sleep for a month past?"

"Yes sir."

"And never did previous to that?"

"No, sir."

The doctor mused.

"Of what does your family consist, madam?"

"Myself and my son, the two kitchen servants, and Celeste, the chambermaid, who only came last month."

Just at that moment, the last named person entered. She was a plump, rosy-lipped French girl, who waited upon Mrs. Smith.

When she had left the room, Mrs. Smith remarked, "That's my new chambermaid, doctor; interesting girl, is she not?"

"Yes, madam, particularly so. I think you said she had been with you about a month, did you not?"

"Yes, sir."

"Then, madam," said the doctor, rising and taking his hat, "allow me to say that any apprehension of your son's health would be superfluous. As long as that young woman's room is accessible to George, I fancy his somnambulic habits will continue. And, madam, under those circumstances, I really don't wonder at it."

We rather imagine that that rather took the old lady down.

A HINT TO TAKE NOW.—White walls and long lines of white fences gleaming amid luxurient and embowering foliage, give to a farm establishment an appearance of neatness and rural elegance and comfort, indescribably attractive to the man of taste, and can in no way be so effectually and economically secured as by giving them a few coats of whitewashing. The whitewashing of cattle and horse stalls, as well as inside of hog cotes and heneries, not only renders them more healthy, but prevents the animals and fowls from being infested with troublesome and filthy vermin.

Take Care of the Hook.

Charley's mother would often sit with him by the fire, before the lamp was lighted in the evening, and repeat to him little pieces of poetry. This is one that Charley used to like particularly. It was written by Miss Jane Taylor:

"Dear mother," said a little fish,
"Pray, is not that a fly?
I'm very hungry and I wish
You'd let me go and try!"

"Sweet innocent," the mother cried,
And started from her nook:
"That horrid fly is meant to hide
The sharpness of the hook!

Now as I heard this little trout
Was young and silly too;
And so he thought, he'd venture out,
To see what he could do;

And round about the fly he played,
With many a longing look,
And often to himself he said:
"I'm shure that's not a hook—

"I can but give one little pluck,
To try—and so I will."
So on he went, and lo! it stuck
Quite through his little gill.

And as he faint and fainter grew,
With hollow voice he cried:
"Dear mother, if I'd minded you,
I should not thus have died!"

After this was finished, little Charley looked grave ly into the fire, and began his remarks upon it. "What a silly fellow that little trout was—he might have known better."

"Take care, dear Charley," said his mamma, "There are a great many little boys just as silly as this trout. For instance I knew a little boy a while ago, his mamma told him not to touch green apples or currants, because it would make him sick. He did not mean to touch them, for he knew it was very disagreeable to be sick and take medicine, but yet he did the very same thing that this little trout did. Instead of keeping far away, he would walk about under the trees, pick up the green apples to look at, and feel of the green currants, just as the little fish would play around the hook. By-and-by, he said, 'I really don,t think they would hurt me; I will just take one *little* taste; and then he ate one, and then another, till finally he got very sick. Do you remember?"

"Oh, mamma, that was me. Yes, I remember."

"Now Charley, hear what I tell you: nobody does very wrong things because they mean to, at first. People begin by little and little, just tasting and trying what is wrong, like this little fish.

"Then there is George Jones, very fine boy, a bright boy, one who means to do right; and then George does not always keep away from the hook. You will see him sometiemes standing around where men are drinking and swearing. George does not mean ever to drink or swear, he only stands there to hear these men sing their songs and tell stories, and sometimes he will drink just a little sip of sugar and spirits out of the bottom of a tumbler; and George never means to be a drunkard.—Ah, take care, George! the little fish did mean to be caught, either, but he kept playing round and round the hook, at last he was snapped up; and so you will be, if you don't take care.

"Then William Day means to be an honest boy, and you could not make him more angry than to tell him he would ever be a thief; and yet William *plays too much around the hook.* What does he do? Why he will take little things out of his father's desk or shop, or out of his basket or drawers, when he really does not want father or mother to see him, or find it out. William thinks, 'Oh, it's only a little thing it isn't much matter; I dare say they would just as lief I would have it as not.' Ah, William do you think so? Why do you not go to your parents and ask for it, then? No, the fact is that William is learning to steal, but he does not believe it is stealing, any more than the little fish believed that what looked like a fly was in fact a dreadful hook. By-and-by, if William doesn't take care when he goes in a shop or store, he will begin to take little things from his master, just as he did from his father and mother; and he will take more and more, till finally he will be named and disgraced as a thief, and all because like the little fish, he *would play around the hook*"—*Our Charley, by Mrs. H. B. Stowe.*

Peoples' County Convention.

Pursuant to previous notice, the American and Republican County Committees met in the Court House, at Hollidaysburg, on Friday of last week, and from what we can learn, we believe the meeting was very harmonious. A resolution was passed calling a Peoples' County Convention, to be held in Hollidaysburg on Tuesday the 27th day of June, (Delegates to which are to be elected on Saturday previous, 25th, in the township between the hours of 4 and 7 P. M., and in the Boroughs between the hours of 7 and 9 P. M.,) to nominate candidates for county offices, and appoint Senatorial Conferrees. A resolution fixing the basis of representation at *two* delegates from each Borough, Ward, and election district, was also passed.

Should that harmoney which prevails among the opposition in other places characterize the coming Convention in this county, there can be no doubt of the success of that party at the ensuing election, especially when the present divided and distracted condition of the Democracy is taken into consideration. From present indications, we do not think the breach in the ranks of the latter, can be sufficiently healed to enable it to poll a united vote for any officer.

OPPOSITION CONVENTION.—The Peoples' Party State Convention met at Harrisburg on Wednesday of last week, to nominate candidates for Auditor and Surveyor General. Hon. David Taggart presided, assisted by a number of Vice Presidents. On taking the Chair, Mr. Taggart delivered a short address, which, from its character, we think was well received by the Convention. A number of gentlemen were nominated for the offices to be filled, and after balletting for a time, the choice fell upon Thos. E. Cochran, of York county, for Auditor General, and Gen. W. H. Keim, of Berks, for Surveyor General. Resolutions condemnatory of the course of the National Administration on the Kansas question and its wonton expenditure of public money, in favor of the passage of the Homestead Bill giving one hundred and sixty acres of land to every citizen who will settle upon and improve the same, in favor of legislation to counteract the frauds upon the Naturalization laws, and approving of the course pursued by Hon. Simon Cameron on the question of protection to American Manufactures, were passed unanimously.

THE MOUNT VERNON FUND.—From the Secretary's report in the *Mount Vernon Record*, we observe that another instalment of ten thousand dollars has been paid over by Mr. Riggs, the Treasurer, to Mr. Washington. Out of $200,000 purchase money, only about 20,000 now remains to be paid. But, "apart from the sum requisite for its proper maintenance and safe guardianship, the Regent ascertained from reliable sources that it will require about $10,000 to restore the rapid decay now going on." It will, therefore, require a very large sum in addition to the purchase money, to place and keep the estate in proper order. Subscriptions continue to pour in freely from all parts of the Union.

"GOOD FOR THIS DAY ONLY."—A case of some interest to railroad travelers, as settling a principle, has been recently decided. James H. Hotchkin, of Prattsburg, Steuben county, bought a ticket on the Erie Railroad at New York for Rochester. It was marked "good for six days only." After the expiration of "six days" Mr. H. presented the ticket between Bath and Rochester. It was refused, and he was ejected from the cars. He commenced a suit, which was recently tried before referees designated by the Supreme Court, and they have awarded the plaintiff $150 damages.

Railroad Competition.

For some time past, the four great central lines of Railroad, connecting the East and West, have been engaged in a competition for the trade and travel passing between those points, which must have tested the foundations of their superstructures if it had been continued. In their efforts to undermine each other, the rates on freight and fare had been reduced to a point below the actual cost of carriage, and as a matter of course it could not be expected that such a state of things should long continue. The New York Central was shipping first class freight from New York city to Chicago at the rate of 35 cents per 100 lbs,—25 cents below the actual cost of carriage. This Road had also reduced its rates of fare in like manner, but in doing so found a rival in the Penn'a Central with which it could not hope successfully to cope. On the 8th inst the Penn'a Central and Pittsburgh, Ft. Wayne & Chicago, reduced the fare from Chicago to Boston to $14, to New York $12, to Baltimore and Philadelphia $10, from New York to Cincinnati $10,25, to St. Louis $23,25, and to other points in like proportion. This was a niche below what the competing routes could stand, and they had either to "come down," come to terms, or go without business, and the consequence was a meeting of the dignitaries who preside over the opposition lines at the St. Nicholas, New York, on Thursday last, at which an amicable discussion was had and a satisfactory basis of settlement agreed upon. The new schedule puts passenger fare back to old rates, and the freight tariff is on the basis of 112 cents per cwt, for the first class to Cincinnati. The New York roads wished to reduce speed and desired, as one of the stipulations of the agreement, that the Penn'a Central should acquiesce, but it being the shortest line, desired present fast schedule to remain in force, as it can make the time with ease.

For the present, then, there is an end of railroad competition, but how long the truce will be observed remains to be seen.

CONSPIRACY TO ASSASSINATE NAPOLEON.—The Paris correspondent of the London *Star* comments on the efforts to preserve profound secrecy concealing all unpleasant news, and adds: In Paris, unless through treachery or private means, we cannot know the truth or falsehood of the war bulletins. No foreign paper possessing the least contradiction to these is allowed to enter. Yesterday seventy papers, principally English and German, flourished on the list of prohibition, and the *employees* of the postoffice derived much amusement from the bitterness of the claimants thereof.

The increase of vigilance and zeal is owing to the occurrence which has just taken place at Alexandria, and which it is most urget to keep secret. Two priests, both Italian, belonging to Tortone, have been arrested and shot, having been detected in a conspiracy on the life of the Emperor. The news cannot be doubted, although the incident in itself proves nothing, save the dread which has seized upon all true Catholics concerning the intention of Louis Napoleon to destroy the temporal power of the Pope, which has evidently been turned to account to work upon fanatic ignorance, and has been made use of to serve a political purpose.

NEW PUBLICATIONS.

THE PILLAR OF FIRE; *Or, Israel in Bondage.*—This is a Scriptural romance, just issued by a New York publishing house, and is meeting with an extensive sale. We might rest its claims upon the patronage of the christian people of every country, and to a place in every library, upon the simple announcement that it is by the author of the "Prince of the House of David," and is a work similar to it in every respect. It contains an account of the wonderful scenes in the life of the son of Pharaoh's Daughter, (Moses,) from his youth to the ascent of Sinai; comprising, as by an eye-witness his miracles before Pharaoh, passage of the Red Sea, and reception of the law on Mt. Sinai. Containing an eleborate and richly colored description of the Architecture of the Egyptians, their Manners and Customs in Peace and War, in the Temple, the Family, the Mart, and at the Tomb; and also of the Israelites, while in the land of Bondage; together with picturesque sketches of the Hebrews under their Taskmasters, of scenes, processions, and spectacles upon and beside the Nile, and Legends of the Obelisks, Sphinxes and Pyramids, and of their Founders before the Flood. Delineations of beautiful women, of Miriam, Amense, Luxora, and Osiris, and of wonderful men, Aaron, the Prince of Uz (Job,) and Remuses (Moses.) Narrated in a series of letters from a Syrian Prince travelling in Egypt, to his Royal Mother, Queen of Tyre.

The volume abounds in characteristic passages of highly wrought beauty, in Dramatic Incident, and in ornate descriptions of Female Loveliness.

Mr. J. M. Burkett, of this place, is agent for the sale of this book in Blair county, from whom they can be had at any time. Price $1,25.

THE LADIES' HAND BOOK *of Fancy and Ornamental Work.*—Comprising directions and patterns for working in Applique, Bead-work Braiding, Canvass-work, Knitting, Netting, Latting, Worsted-work, Quilting, Patch-work, &c., &c. Illustrated with 262 new Engravings. Complied from the best authorities, by Miss Florence Hartley. Published by G. G. Evans, 439 Chestnut Street, Philadelphia. 1859.

This is the most complete and thorough work of its kind. By writing in a simple, straightforward style, and rejecting all irrelevant topics, the author has been enabled to embody in this volume an immense amount of useful and valuable information, and by far the most extensive collection of elegant patterns that has ever been brought together in one book. These patterns are engraved by the best artists and printed on excellent paper and beautiful style. Of course such a volume is *the rage* with the ladies, who can appreciate tasteful patterns for adorning their persons and their dwellings.—They know the value of "Hartley's Ladies' Hand-Book," and are ordering it with a perfect rush. It is an indispensable book for all who would be perfect in ornamental work.

Besides the subjects named on the title-page, we observe that the volume embraces descriptions and engravings of all the various kinds of stitches and descriptions, with illustrated patterns, and a multitude of other matter incidental to the subject. The number of useful patterns for working in this book is greater than can be obtained in any other way, by paying ten times the price asked for "Hartley's Ladies' Hand-Book." This valuable book for the Ladies will be sent by mail, for the low price of one dollar. STEPS TOWARD HEAVEN; *or, Religion in Common Life.*—Written by T. S. Arthur, the well-known author, of whom it has been truly said, *"That dying, he has not written a word that he would wish to erase."* His graphic pen never tires, and in this new volume we perceive that he is still successfully laboring to benefit while he pleases, and while he enchans with master hand the attention of men, to make them better. This is more decidedly religious than his other works, though it is not doctrinal nor sectarian. It is a work well calculated to do good, and is designed to show that the beauties and endearments of Christianity are to be developed amid the stern realities of every-day life, "and not to be put aside at the tranquil close of Sabbath evening."

A $25,000 BILLIARD MATCH.—*Porter's Spirit of the Times* says that a movement is on foot in Detroit to comply with the demands of Mr. Phelan, in relation to the amount of money requisite for a new encounter between him and Seereiter; and that a private subscription will shortly be set on foot to post the necessary sum for a match of $25,000 a side, and the Championship of America. This movement will proceed from pure city pride, and not from any love of gain; and it will be conducted in the main by gentlemen who, ordinarily, do not take much interest in wagers of any kind, Having learned that Mr. Phelan is determined not to play again for a less stake than $25,000, and being confident in the ability of their champion to redeem his laurels, they are determined to come up to the mark of Mr. Phelan's declarations, and give their representative another chance.

☞ At Rosenberg, Oregon, on the 7th inst, the Deputy Sheriff of Douglass county, attempted to arrest a desperado named McPherson, for shooting a man in the hand. McPherson resisted, and the Sheriff ordered several citizens to assist him. McPherson then drew his pistol and fired several shots, killing Brad Robinson, and wounding two other men, but was finally arrested on the 9th. During the examination before a Justice of the Peace, the prisoner attempted to wrest a knife from the witness, who was at the time testifying against him, and to escape. This so exasperated the populace that they hung him without further ceremony.

A Woman Rescued from the Mormons.

A company of returning Pike's Peaker's passed through here last Sunday, having under their protection a young lady, whom they had taken from a Mormon train, a few miles west of Newton, a short time previous. It appears that, on last Sunday morning, as the Pike's Peak boys were crossing Shunk Bottom, they passed a train of Mormons, who were busily engaged—men, women and children—in endeavoring to extricate a number of their wagons that were stuck fast in the mud. While stopping for a moment to witness the exertions of the Saints, they accidentally overheard a young girl, of about 19, exclaim, "I wish I was drowned in that slough!" Their interest was at once awakened, and they interrogated her as to why she made such a foolish wish. She replied that she was tired of life; that she had started from Iowa City for Salt Lake, with her father, who is a Mormon Elder; that she had been compelled to walk all the way thus far, and that when she expressed a wish to leave the train and return to the city they invariably stopped her mouth. She was informed by the Peakers that if she desired to return to Iowa City she should go back with them, to which she replied that she desired very much to return. The Mormons, numbering some fifty men, gathered around, armed with guns, knives, pistols, &c., &c., and declared that she should not go back.

The Peak boys, nothing daunted, armed themselves with guns and revolvers, and announced their determination to take the girl at all hazards, and proceeded to carry out their intentions. For a time a fight seemed inevitable, but finally Mormon courage gave way, and the boys succeeded in placing the girl safely under their own protection. She then informed them that the Saints had a trunk and other baggage belonging to her, which they at once proceeded to obtain. The followers of Brigham boldly announced their intention to fight before they would permit the things to be taken from their wagons.

A show of guns and revolvers, however, cooled their ardor, and Mormon courage oozed out at their fingers' ends, while the boys proceed to transfer the baggage to their own wagons—the Saints looking on and uttering terrible imprecations against the perpetrators of the horrid outrage, as they termed it. After obtaining all they sought, the rescuers drove away with the young lady in their possession, leaving the Mormons to console themselves as best they could in their loss.

The Pike's Peakers who were engaged in the rescue, who numbered only about 28 men, were from Indiana, Illinois and Iowa City.

HOW TO PRONOUNCE THE NAMES OF PERSONS AND PLACES AT THE SEAT OF WAR.—On the 20th of April, the Austrians crossed the river Ticino (Te-chee-no.) They crossed at Pavia (Pa-vee-a) and Bereguardio (Ba-ra-gwar-do.) and would have crossed at Buffalora (Boof-fa-lo ra) had they not found the bridge blown up. They occupied the towns of Novara (No-vah-ra,) Vigevano (Ve-jay-vah-no,) Pallanza (Pallan-tsa,) Tomagnano (To-man-yah no) and Vercelli (Verchel-lee.) establiishing their head-quarters, first at Robbio (Rob-be-o) and afterwards at Mortara (Mor-tah-ra.) They fortified themselves on the banks of the River Sesia (Sa-se-a) and as far as the Lago Maggiore (Lah-go Mad-jo-ra.) They pushed their reconpoitering parties as far west as Stroppiana (Strop-pe-ah-na) and Santhia (San-te-a,) and southward as far as San Giorgia (San Jor-go) and Voghera (Vo-gay-ra,) having crossed the Po at Corncale (Cor-nah-la) and menaced Tortona (Tor-to-na.) At Frassinetto (Frns-se-net-to) they had a skirmish with the Sardinians; at Pontecurone (Ponta-coo-ro-na) they blew up a railway bridge; and at Valenza (Vah-len-tsah) destroyed another. So much for the troops of Count Gyulai (Joo-li.)

Meanwhile the French, crossing the Alps, came pouring down from Mount Cenis (Mon-Scha-nee) into (Soot-sa) and pushing forward to join the Sardinians at Turin, which they call Torino (To-ree-no,) when the allied troops advanced to fortify the banks of the Dora Baltea (Do-ra Bal-tay-a.)

The other division of the French and the Emperor Napoleon himself, landed at Genoa, (in Italian Ge no-va,) where they joined the Sardinian column, whose head-quarters were at the impregnable fortress of Alessandria, (Allesandre-a,) and who also hold the fortified town of Casale (Ca-sah-la.) The king and emperor having met, established their temporary head-quarters at Occimiano, (Ot-che-me-ah-no,) whence they can easily communicate with their respective commanders—Generals La Marmora (Lamar-mora) and Marshal Canrobant (Canro-bair.)

WEDDED MATED.—At Detroit, recently, an ox was killed because he could not understand the French language. The team, consisting of one English and one French ox, drawing a heavy load and driven by a French driver, was crossing the track when the express train made its appearance. The driver, in great excitement, immediately ordered his oxen to "*chuck*," the French word for "haw." The French ox understood him, and turning off the track, saved himself, but the English ox, never having studied the language, pressed further on, and was instantly killed.

MILITARY ELECTION.—Below we give the vote cast by the different companies, in this Brigade, on Monday of last week, for Brigade and Regimental officers, as also the names of the officers of each company elected at the same time.—There was considerable feeling among the members of some of the companies previous to and on the day of election, but we believe it has died away in the breast of all but a few disappointed candidates for posts of honor, who evince a disposition to "kick out of the traces" of military duty:

TEMPERANCE LECTURE.—It is with pleasure, in anticipation of a rich treat, that we announce that Rev. John Chambers, of Philadelphia, the great war-horse of temperance, as he is styled, has consented to deliver a lecture on that subject, in the Presbyterian church, in this place, this (Thursday) evening. It is needless for us to say anything in commendation of the Rev. gentleman's powers as a lecturer and his ability to interest, amuse and instruct his hearers, as we presume there are few, if any persons in the place who are not aware of his popularity in this respect, and who will not gladly embrace this opportunity to hear him.

He delivered two interesting and impressive sermons in the Presbyterian Church on Sabbath last. In the evening the crowd to hear him was so great that the church would not contain it, and many were compelled to go away.

☞ The attention of our Local readers is directed to the very liberal offer, made by Mr. Evans the great Gift Bookseller of the country, through our columns to-day, by which a valuable book, and perhaps a handsome prize, may be had for the small sum of $1.00. Read the notice of the books under head of "New Publications." Mr. Evan's is the originator of the Gift Book Enterprise, and has carried it on for years, always giving satisfaction to his patrons; in fact we don't think any one should have a reason to complain, for the buyer always gets the worth of his money in the book or books he purchases, whether he draws a prize or not—The ladies will of course want the work on Fancy and Ornamental Work, &c., and everybody will want T. S. Arthur's work entitled "Steps Toward Heaven." See notices.

VIRGINIA STREET.—The work of macadamizing this principal thoroughfare of our town, is progressing slowly, but fast enough, we think, to insure its completion during the summer.—So far as the work has been completed it gives general satisfaction. Traveling over it will of course be rough for a time, but the extent to which it will be used will soon make it smooth and perfect. Could the borough afford it, we think the entire street should be covered with soft slate or cinder from the shops. Either would serve to set the stone and make the street at once more agreeable to travel.

HANDSOME BOQUET.—We notice a number of our contemporaries returning thanks for handsome boquets presented them by their lady friends, some of which, we have no doubt, were very nice; but we think the one we (the Junior) received from Mrs. R. H. McCormick, a few evenings since, would far surpass anything of the kind ever set before a country editor. It contained twenty-two different varieties of roses, and an almost innumerable number and variety of other flowers and shrubbery, forming altogether the largest and handsomest boquet we have ever seen. The kind donor will please accept our thanks for this beautiful token of her good will and wishes. We love flowers—loved them among the first objects we can remember having loved; and we often think that we, as well as others, are not as thankful as we should be to Him who beautifies this cheerless world with so many and varied flowers. While thus reflecting, the lines of Mrs. Mary Howitt seem very appropriate:

"God might have made the earth bring forth
Enough for great and small,
The oak-tree and the cedar-tree,
Without a flower at all.
He might have made enough, enough
For every want of ours;
For luxury, medicine and toil,
And yet have made no flowers.
Our outward life requires them not—
Then wherefore have they birth?
To minister delight to man,
To beautify the earth;
To comfort man—to whisper hope,
Whene'er his path is dim,
For whoso careth for the flowers,
Will surely care for him.

CITIZENS' ENGINE AND HOSE COMPANY.—We suppose there are many of our citizens who are as yet unaware of the organization of a fire company under the above name in our borough, for the purpose of protecting property and goods in case of conflagrations. This is an institution which should be in every place where fire is at all liable to occur. By looking back a few months, we may see that Altoona is by no means an exception. At the time to which we refer, our citizens were loud in their demands and liberal in proffering means for the purpose of getting up a fire company. Now that such a company has been formed, the liberality of our citizens will shortly be tested, as a committee to procure means to purchase an engine and hose carriage has been appointed by the company, and will wait upon them in a few days. We hope our citizens will give them proper encouragement. Any person wishing to join the company, should apply to the investigating committee, A. Kipple, F. Shillinger, A. A. Smythe, W. W. Smith, J. F. Russell, or any member of the company, who will give all necessary information.

☞ Testimonial to the Principal of Duff's Mercantile College. On the 1st inst., the students of this institution presented their principal, Mr. Duff, with an elegant service of silver plate, accompanied with resolutions warmly expressive of their admiration of his lectures, and eminent services as a Commercial Educator, and of the ability of the other members of the College Faculty. The manner in which this honorable mark of distinctions was presented and received was equally creditable to both parties. The Principal toughed lightly on the history of his establishment, gratefully acknowledging the tribute paid to its reputation by a number of his present class, who had travelled 1500 miles to join it, and now united with its resident patrons in this splendid memorial of their regard.

JUNIOR'S PIC NIC.—On Saturday morning last, we observed a number of the members of the old Camp of Junior Sons, of this place, preceded by quite a party of ladies, making their way to the Depot to take the Branch Train, on which to proceed to Eldorado Station, where they spent the day in a grove, after the usual custom of young people at such turn outs. In our opinion the weather was rather Aprilish for comfort but we presume they did not feel uncomfortable, at least we never did when we "mixed in" on such occasions.

☞ Our friend, Judge Jones, of the *Register*, "over-the-hill," in consideration of his handsome notice, will please consider the thumb and two first digitals of our left flexor and extensor applied with delicate precision to the frontispiece of the surplus covering of our craniums, causing the same to ascend gracefully into the atmosphere, accompanying which our corporeal corporations describe a graceful curve, similar to that of the neck of a choked chicken attempting to swallow a grain of corn.

COL. L. W. HALL.—We notice by the Hollidaysburg papers that our popular townsman, Col. Hall, delivered his popular lecture on "Benjamin Franklin," in the Court House, at Hollidaysburg, on Friday evening last, to a select and attentive audience. It was given for the benefit of the Hollidaysburg "Fencibles." The *Register* says "the lecture is entirely worthy of its learned and eloquent author, and was delivered in good style."

THE COUNTY FAIR.—Well, as we expected, the Blair County Agricultural Fair is to be held at Hollidaysburg, on the 5th, 6th and 7th of October next. We are not aware of any effort having been made to secure its location at this place this season. If our Hotel Keepers, Merchants, and other business men did not desire it, we have nothing more to say, as to them would have accrued the profits.

ANOTHER FROST.—On Saturday morning last we received another visit from Jack Frost, and we have since heard various opinions expressed in reference to the extent of his attack upon the fruit, grain and vegetables, some thinking it light, and others severe. Undoubtedly the vegetable kingdom suffered, but from all we can learn, we think the fruit and grain in this region still safe.

THE PIC NIC.—The inclemency of the weather for some time past, has rendered it necessary to postpone the contemplated pic nic to Spruce Creek, until the weather becomes more settled. We are sorry for this, nevertheless, we prefer to "wait a little longer," rather than go upon an excursion of this kind with an overcoat upon our arm.

ERRATA.—We were in error, last week, in stating that the Knight Templars meet in this place on the 22d of June. It should have read 24th instead of 22d.

☞ From the Hollidaysburg *Register*:

DEAD MAN FOUND.—On Thursday last a couple of our town's women happening to pass along the old ore diggins in the field of Mr. Thorn, close by Brush Run and adjoining town, they discovered the body of a man floating upon the water which filled the excavation of the diggings; and information of their discovery being communicated to Justice Cox he summoned a Jury and proceeded to the spot to hold an Inquest, Dr. Landis being in attendance as physician. Upon the removal of the body from the water it was found to be in a very decayed state, the flesh entirely gone from the face, the hair from the head, the eyes from their sockets &c. The body had on a pair of new black cassimere pants, new satin vest, a flannel and muslin shirt, and a pair of good shoes, with heavily nailed soles, indicating beyond a doubt that he had been a miner. He was of medium size, and his teeth indicated that he was at least at middle age, and perhaps considerably past it. The pockets of his clothes were rotted out, and there was nothing about him to give a clue to his indentity, save a clothier's ticket marked with cost and selling price, stitched to his vest.—But this is not identified by any of our dealers here. He must have lain in the water for a considerable time, his heavily nailed shoes preventing his rising to the surface. He was interred on the bank of the run, close by the spot where he was found. The water in the ditch in which he drowned was some eight or ten feet deep. He had probably accidentally fallen in whilst passing after night, it may be intoxicated, or it may be quite sober. It is not supposed that there was any foul play in the case; but it is a rather singular singular fact that the miners have no knowledge of any of their number being missing.

CHILD BITTEN BY A COPPERHEAD.—*A Heroic Woman.*—On Tuesday of last week, a little boy some three or four years old, child of Mr. Thomas Hoffman of Scotch Valley, residing on the property of Mr. Jesse Moore, was bitten no less than three times in one of its hands by a copperhead snake. It occurrd in the house, the snake having in some way got in. Dr. Smith was called, and administered remedies, and the child is now out of danger. It is a remarkable statement, but nevertheless a strictly true one, that a season or two ago the wife of the man then residing in this same house, killed two of these terrifying reptiles by thrusting a fork through them as they would poke their heads up in the crevices between the hearth-stones of her kitchen fire-place! Daring feat, truly. Van Amburg never attempted a bolder!

TYRONE CITY HOTEL.—Capt. W. H. Irwin, of Duncansville, has purchased the Tyrone City Hotel, which is now undergoing an extensive and thorough course of repairs. Visit to the M. E. Sunday School.

MESSRS. EDITORS:—On the afternoon of last Sabbath I wandered into the M. E. Sunday School, of Altoona, for the first time. I found the large lecture room of the church well filled with males and females of almost all ages, (the average attendance of scholars and teachers being, as I learn, about 180,) busily engaged in the usual duties of the Sunday School room, under the general supervision of Mr. John Shoemaker, assisted by a large number of young men and ladies known by the name and style of "Teachers."

One commendable feature to be noticed in the Sunday Schools of the present day, that did not exist at the time and in the country where it was my privilege to attend similar institutions, is the attendance of many, both males and females, of an adult age, earnestly seeking useful and religious instruction. Would that many more of the same class were to be found there.

But the most novel and interesting scene was the Infant Class, in a separate apartment, under the care of that very accomplished lady and devout christian, Mrs. King. Certainly too much praise cannot be given her for the faithful and efficient manner in which she discharges the arduous duties resting upon her, in properly managing and instructing some forty little girls and boys at one time in one class; many of them promptly answering Biblical questions that would have puzzled heads much older than theirs. Who can calculate the value, in after years, of the good impressions made here? Surely this effort merits the most hearty co-operation of all who have the present and future welfare of the rising generation at heart, and I trust that the authors and teachers of these nurseries of piety will receive the support and reward they so richly deserve.

Dalley's Magical Pain Extractor.

In all diseases inflammation more or less predominates—now to allay inflammation strikes at the root of disease—hence an immediate cure.

DALLEY'S MAGICAL PAIN EXTRACTOR, and nothing else, will allay inflammation at once, and make a certain cure.

DALLEY'S MAGICAL PAIN EXTRACTOR will cure the following among a great catalogue of diseases: Burns, Scalds, Cuts, Chafes, Sore Nipples, Corns, Bunions, Bruises, Sprains, Bites, Poison, Chilblains, Piles, Scrofula, Ulcers, Fever Sores, Felons, Ear Ache, Piles, Sore Eyes, Gout, Swellings, Rheumatism, Scald Head, Salt Rheum, Baldness, Erysipelas, Ringworm, Barbers' Itch, Small Pox, Measles, Rash, &c., &c.

To some it may appear incredulous that so many diseases should be reached by one article; such an idea will vanish when reflection points to the fact, that the salve is a combination of ingredients, each and every one applying a perfect antidote to its apposite disorder.

DALLEY'S MAGICAL PAIN EXTRACTOR

In its effects is magical, because the time is so short between disease and a permanent cure; and it is an extractor, as it draws all disease out of the affected part, leaving nature as perfect as before the injury. It is scarcely necessary to say that no house, work-shop, or manufactory should be one moment without it.

No Pain Extractor is genuine unless the box has upon it a steel plate engraving, with the name of Henry Dalley, Manufacturer.

Sold by G. W. Kessler, Altoona; George A. Jacobs, Hollidaysburg; and by all the Druggists and patent medicine dealers throughout the United States and Canadas.

DR. McLANE'S
CELEBRATED VERMIFUGE AND LIVER PILLS.

☞ A singular combination, but very effectual, as the following will shew:

NEW YORK, November 20, 1852.

Knowing, from experience, the valuable qualities of *Dr. McLane's Vermifuge and Liver Pills*, prepared by Fleming Bros., Pittsburgh, I have for some time back considered it my duty, and made it my business, to make those articles known wherever I went among my friends. A short time ago I became acquainted with the case of a young girl, who seemed to be troubled with worms and liver complaint, at the same time, and had been suffering for some two months. Through my persuasion she purchased one bottle of *Dr. McLane's Vermifuge*, and one box of *Liver Pills*, which she took according to directions.—The result was, she passed a large quantity of worms, and thinks that one box more of the Pills will restore her to perfect health. Her name and residence can be learned by calling on E. L. Theall, Druggist, corner of Rutger and Monroe streets.

☞ Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, manufactured by FLEMING BROS. of Pittsburgh, Pa. All other Vermifuges in comparison are worthless. Dr. M'Lane's genuine Vermifuge, also his celebrated Liver Pills, can now be had at all respectable drug stores. *None genuine without the signature of* FLEMING BROS.

MODERN INVENTIONS.

We know of no invention of modern times that deserves or is destined to occupy a higher niche in the temple of fame, than the discovery or invention of the Vegetable Epileptic Pills, for curing Epilepsy, or Falling Fits, Spasms, Cramps, and all the various modifications of Nervous Disease. *Dr. Seth S. Hance*, of 108 Baltimore st., Baltimore, Md., the inventor, is certainly entitled to the best wishes of all the benevolent portion of mankind, who experience a pleasure in the alleviation of human suffering. When Dr. Hance first prepared these Pills, he intended them solely for Fits, Cramps and Spasms; but subsequent experience satisfactorily proved to him, that in addition to their remarkable sanative properties in this class of diseases, they exerted a perfect control over the nervous system. He was then induced to try them in cases of Neuralgia, Tic Doloreaux, Nervous Headache, Palpitation of the Heart, Incipient Paralysis, Hysteria, Muscular Debility, and a host of minor diseases, springing from a lack of nervous energy, in all of which his anticipations were crowned with the most sanguine success. Persons at a distance, by writing and sending a remittance to Dr. Hance, can have the medicine forwarded by mail to their post office address, he paying the postage. The prices are for a single box $3, two boxes, $5, or $24 per dozen. We have given his address above.

SHOEMAKER'S ASSITANT!—Marshall's Patent Last Holder.

This machine is designed to hold a Boot or Shoe of every size, and also in every desired position, for pegging, sewing, pairing off, buffing, setting up edges, &c., thus rendering it unnecessary for the operator to hold his work either in his hands, upon his knees, or against his breast. He can stand or sit at pleasure. It has also a Lap-Iron attached. The whole apparatus is strong, durable, light, compact and portable.

By the use of this machine, the business in question is greatly facilitated, and also rendered one of the most healthful and pleasant occupations among the mechanical arts.

The above invention needs only to be seen to be appreciated.

BOERHAVE'S
HOLLAND BITTERS.

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,
DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND
FEVER AND ACUE,

And the various affections consequent upon a disordered

STOMACH OR LIVER.

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave: Because of its great success in the most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medical virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

CAUTION.—The great popularity of this delightful roma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Boerhave's Holland Bitters a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

DR. COGGSWELL'S NEW MEDICAL SALT. *For Inflammatory Diseases only.*

DR. COGGSWELL'S NEW MEDICAL SALT, instead of being a remedy for all ills, has but one aim, and accomplishes but one thing, to wit: Subdues inflammatory disease, wherever it be its form or locality. This it does by equalizing the circulation, thereby removing the sole cause of inflamation.

RHEUMATISM, NEURALGIA, Headache, Fits, Colds, Fevers, Inflamed Throat, Lungs, and Liver, Female Diseases Erysipelas, Bronchitis, Pleurisy, Asthma, Dyspepsia, Venereal Diseases, Gout, Scrofula, Canker and all other forms of Inflamation are easily subdued by the New Medical Salt.

THE NEW MEDICAL SALT, is no CURE-ALL, but does just what it claims to do—no more, no less—equalizes the circulation by removing from the system all arterial and venous obstructions.

MULTITUDES HAVE TRIED the virtues of the New Medical Salt, though but lately discovered and introduced. Witness the testimonials and certificates of cure.

ALL WHO HAVE USED IT acknowledge a benefit from it.—An acquaintance of ours was cured of a severe case of Neuralgia in less than a week.

YOUR INVALUABLE MEDICINE is nobly fulfilling, in my case, all the promises which you made for it. A few doses also relieved my mother of a rush of blood to the head.

J. P. GILLINGHAM, Phila.

INFLAMMATORY RHEUMATISM was my complaint. The first package did the work effectually, as not a vestige of Rheumatism is left. G. H. DUNCAN, New York.

I KNOW IT IS GOOD for Rheumatism, removing it in a few hours. I am now trying it for Scrofula and have already received benefit. S. LESSIG, Reading.

I TRIED IT FOR ANEURISM of the Abdominal Aorta. In ten days the pain was gone.

T. W. FITZIMONS, M. D., Phila.

WE SPEAK BY THE BOOK. We have tried it. It has complete control over inflamation.

BRONCHITIS, CANKER, Rheumatism, and Neuralgia have been cured by it.

MANY MORE WOULD TESTIFY, if necessary. Descriptive Circulars, with testimonials may be obtained from any Druggists who has this valuable medicine for sale.

DR. COGGSWELL'S Antiphlogistic salt. Price, One Dollar. Chronic Package, $2.50.

Gen. Agents, 202 Dock St. Phila.

THE NEW MEDICAL SALT IS FOR SALE in Altoona, by A. Roush; Geo. A. Jacobs, Hollidaysburg, and by all enterprising druggists wherever the "Tribune" is read. As it is not a patent medicine, but the prescription of an eminent physician, no one should fail to try the Medical Salt. For testimonials and directions, see circular.

SUFFERING HUMANITY, READ THIS.—The undersigned takes this method of informing the public generally that there is no medicine now offered to the public that is equal to DU VALL'S GALVANIC OIL, in relieving suffering humanity.

I was an observer of its effects on a friend of mine, who suffered almost everything from a neuralgic affection which resisted the best medical treatment in Centre county. We applied freely the Galvanic Oil to the painful part, and gave some inwardly, and in 20 minutes the patient was asleep, and when awakened was free from pain and continued so. This
